

Remarks

In response to the Advisory Action mailed January 31, 2006, the Applicants have amended the specification, drawings and claims consistent with the requirements of the Office Action mailed November 29, 2005 to place the application in condition for allowance. Accordingly, the drawings and specification are amended, objected Claim 13 is rewritten as an independent claim, and rejected Claims 1-7, 16, 19 and 22 are canceled.

Regarding the drawings, all are replaced with formal drawings consistent with the requirements of 37 CFR §1.84. Regarding the objection to element 540 of Figure 2, the specification at the paragraph bridging pages 4 and 5 is amended to make an appropriate reference to these notches.

Regarding the objection to element 620 of Figure 3, the Examiner is respectfully requested to note that this element is referenced at line 8 of page 5, i.e., "folded along weakness 620 (e.g., a score, perforation, crease, fold line or the like)" The numerical "620" is inked into the margin and appropriately initialed and dated by the inventors.

The photocopies of the photographs are replaced with black ink drawings, and each of the replacement drawing sheets are labeled in the top margin as a "Replacement Sheet".

Amended Claim 13 does not require an additional fee because the total number of independent claims is two, and the total number of claims is 12. If, however, the Examiner determines otherwise or that a fee is due for another reason, e.g., an extension of time, then the Examiner is authorized to charge our deposit account no. 232053 for whatever fee is required.

Speedy consideration and allowance of the pending claims is requested.

Respectfully submitted,

A handwritten signature in cursive script that reads "Gary R. Plotecher".

Dated: 27 Feb, 2006

Gary R. Plotecher
